PROFILE

Computer Science undergraduate with hands-on experience across full-stack web development, database-driven applications, and systems-level programming. Seeking software engineering, full-stack development, or AI/ML opportunities to apply a strong foundation in C++, Python, Java, and JavaScript alongside cloud computing coursework.

EDUCATION

Bachelor of Science in Computer Science

Expected: Fall 2027

American University of Sharjah (AUS), Sharjah, UAE — Junior standing

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, HTML, CSS, Assembly, MATLAB

Tools & Platforms: Git/GitHub, WordPress, Ghidra, Oracle SQL, Apache Maven, CapCut

Cloud Computing: Google Cloud fundamentals, Microsoft Azure fundamentals & core architecture (see Certifications)

Languages Spoken: English (fluent), Urdu (native)

PROJECTS

Smart Budget — Personal Finance Web App | Team Project (4 members)

AUS

- Built a budgeting web application that takes a user's savings goal, timeframe, and expense list, then calculates recommended spending, saving, and investment amounts.
- Implemented core front-end and logic using HTML, CSS, and JavaScript as an all-round contributor across design, functionality, and testing.
- Currently extending the project to incorporate AI-driven recommendations for more personalized budgeting advice.

SDI — Database-Driven Desktop Application | Team Project (4 members)

AUS

- Designed relational database schemas and blueprints, then implemented a Java (Maven) GUI connected to an Oracle SQL backend.
- Built and tested end-to-end functionality linking the GUI to live database operations, contributing across schema design, backend integration, and interface development.

CERTIFICATIONS

- Google — AI Program Certificate
- Google — Cloud Computing Fundamentals & Cloud Services
- Microsoft Azure — Azure Fundamentals & Core Architectural Components

VOLUNTEER EXPERIENCE

Community Service Volunteer | American University of Sharjah

UAE

- Volunteered with an AUS community service initiative to help refurbish and repair facilities at a local orphanage.
